Travis

I wanted to say thanks for all of the hard work that Jeff and the rest of the crew did on the Marshall county job. Three Steele folks were there last week to do some follow up work on the feeder install. The level of all feeders was within specs and the electrical was ready to be started and ran while we were there. It nice to work with good folks that are helpful and have items finished when they say they will be ready. This is not the case in many start ups. We appreciate your continued support and thank you!

Tom

Good Morning Travis,

Just wanted to reinforce how pleased we are with the couple projects you've completed here at Weirton. We too hope to continue our good relationship with Lincoln Contracting. Thank you very much for helping to resolve the issue with the silo walkway project.
